Thank You

Dear Paul Lynman & Staff,

Thank you for the amazing tour of Lick Observatory. For many of us, Lick was our favorite tour of all the places we've visited in our 10 weeks at NASA Ames. We really felt like you tailored the tour for the group and made us feel special. We learned a lot & got to experience many things most people only dream of, a memory we will cherish for years to come.

P.S. Please thank the additional staff that came in to help. It was a late night we are very grateful for! *Marissa Cameron*, on behalf of the NASA Space Academy.

Hello Dr. Lynman,

On behalf of the NASA Ames Aeronautics Academy, I'd like to sincerely thank you for the very entertaining and educational tour of Lick Observatory. It was definitely one of the highlights of my summer and I truly hope I will be able to return again.

Sincerely,
Christina Middleton
